

## ULI - AGlow

### T-5 Suspended – Continuous Mounted Rail Trunking Luminaire

#### Key Features

- Rapid installation of luminaire onto Trunking Rail.
- Reduces wiring requirement with built-in looping circuit plus male/female quick connectors (snap-on).
- Clip-on louvres enabling tool-free relamping.
- Using technically & economically optimal T5 light source.
- Aesthetically appealing cable suspended ULI® trunking rail.

#### Accessories

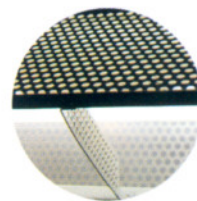

- Suspension cable with wire grip for easy adjustment of suspension height.
- Ceiling canopy for clean look.
- Joining splice and end caps for trucking rail.
- Perforated joining splice and end caps for luminaire fitting giving a coordinated look.

#### Areas of application

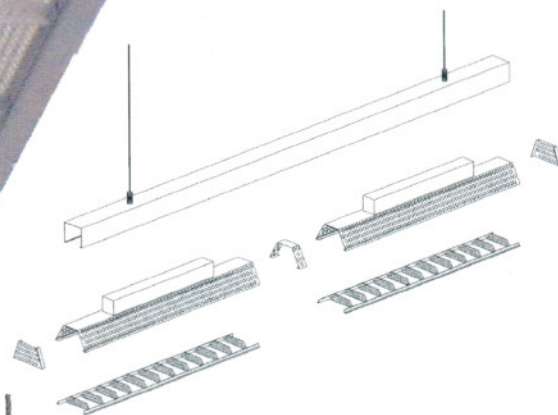

- Warehouses for storage / logistics.
- Supermarkets, shopping malls.
- Exhibition halls.
- Industrial buildings.
- Factories / production areas.

Experience the rejuvenating ambience of perforated glow for general and functional illumination.

Trunking mounted luminaire is custom designed for continuous row installations. It especially supports ease of installation and does away with messy rewiring during relocation.
