

ExtremeFlat Recessed

T-5 Recessed Luminaire with ECG

ExtremeFlat is a range of high specification luminaires utilising cutting edge T5+ECG technology working in synergy with a custom designed T5 louvres. The housing is joint-free & is made in a one-piece top frame. This accentuates the exclusive appeal of the luminaire.

Key-Features

- Extremely shallow housing (50mm) & thus easy installation.
- Supreme lighting engineering & economical operations with ECG.
- 60° VDT Specular louvres and total glare control in all azimuth directions.
- Seamless one-piece top housing with no butt joints as visible luminaire frame.
- Attractive design, novel appearance, easy to integrate into any office scenery.
- Energy saving, higher light output ratios with reduce energy consumption in comparison to recessed mounted T8 luminaire.
- Tool-free installation of louvre with spring catches holding louvres in place.
- Matt Satinaluminium louvres for controlled brightness & low glare or highly polished louvres.
